## Optimin® Copper 15% E.U.

### Item Code

---

17113510

### General

---

Optimin Copper 15% is the product resulting from the chelation of a soluble inorganic copper salt with amino acids and short peptides originated from hydrolyzed soy protein.

In the European Union Optimin Copper 15% is registered as a nutritional feed additive according to Regulation (EC) No 1334/2003 / Corrigendum belonging to the functional group of trace element compounds. When used as a commercial feed ingredient it must be declared as: E4 Copper, Cupric chelate of amino acids hydrate.

### Applications

---

Optimin Copper 15% is a nutritional feed additive for livestock, fish and companion animal diets. Optimin Copper 15% is designed to effectively prevent nutritional disorders related to copper supply.

### Specifications

---

- Total Copper min. 15 % (guaranteed analysis)
- Moisture max. 8% (in original unopened bag)
- Appearance free flowing powder
- Colour blue-green
- Odour a mild grain derivative odour

### Recommended dosage for use

---

Optimin Copper 15% should be fed at a supplementation rate between 25 and 50% of the daily requirements, depending on the basal copper supply of the feed and on the degree of dietary or physiological challenges to the copper status.

### Packaging

---

25 kg/55.1 lb multi-wall paper bag with LDPE inner liner.

## Stability & Shelflife

---

Store in a cool, dry place in original packaging and protect from humidity.

Keep product container tightly sealed when not in use.

This product is stable in pelleting and extrusion processes.

This product is stable in the original unopened bag for 2 years from the manufacturing date.

Batch number and Manufacturing date: see bag label

## Undesired substances

---

All levels of possible undesired substances comply with Directive No. 2002/32/EC and amendments of the European Parliament and of the Council on undesired substances in animal feed

## GMO

---

In compliance with European feed legislation related to traceability and labeling of genetically modified organisms and the traceability of food and feed products produced from genetically modified organisms (Regulation (EC) No 1831/2003 and amendments).
